

MANUFACTURING SERVICES

Manufacturing & ERP Services from Revolution Group

Are your manufacturing processes and business systems closely aligned with your business objectives and optimized to meet your needs? Or, do you struggle with dysfunctional systems and lack of visibility into your critical data?

If you are like most manufacturers, you fall somewhere between complete dysfunction and a finely tuned environment. You need a partner who can help streamline processes, improve efficiency and create an optimal manufacturing environment. With proven strategies and industry best practices, Revolution Group helps you align your processes and systems with your vision and business objectives. This increases productivity and gives you a competitive advantage.

CONTINUOUS IMPROVEMENT

We combine industry leading best practices with Lean Six Sigma methodology to eliminate waste from your entire value stream.

ERP SELECTION

We will help you identify the best ERP applications that align with your goals and requirements.

ERP DEPLOYMENT & OPTIMIZATION

We deploy ERP solutions using our proven methods and then work with you to develop a strategy that continually maximizes your investment.

DEVELOPMENT & INTEGRATION

We extend your ERP functionality to meet the business requirements unique to your organization.

TRAINING & EDUCATION

We will work with you to craft a training program that meets your needs and sharpens your team.
