# Challenge

UACJ Metal  
Components  
North America

Supplier to Newman

- 2.** Traditional 862 received from Newman would not contain Subaru PO/Release information required on labels

Newman  
Technology

Supplier to Subaru

- 3.** Newman is forced to re-label inventory received from UACJ before shipping to Subaru in order to provide release information on labels

Subaru  
North America

Newman's Customer

- 1.** Subaru sends PO/Release specific information that is required on inventory labels received from Newman

# Solution

- 1.** Newman receives 830 & 862 from Subaru, loads releases to Subaru blanket Customer POs
- 2.** UACJ receives same Subaru 830 & 862 via turnaround mailbox (with Subaru release information populated), loads releases to Newman blanket Customer POs (identical to Subaru Customer PO Nos in Newman PCN)
- 3.** UACJ creates jobs from Newman customer orders, produces and prints inventory labels lineside (with Subaru release information), ships to Newman
- 4.** Newman receives pre-labeled inventory (against blanket UACJ Supplier PO), ships direct to Subaru
