

Plex Supply
Chain Community

*Using today's technology to
better serve your Plex data*

Tools and Infrastructure include:

ODBC Connectivity, SQL DB in MS Azure Cloud, PowerBI, and
Microsoft Teams

Privately Held Company

Established in 1981 – Plex since 2011

\$215+ Million w/ 700+ Associates

11 Locations – 9 Manufacturing

8 US - 1 Canada - 1 Dominican Republic

Automotive, Medical,
and Industrial

Premium Finishes

Delivering a high quality and attractive final coat to your product.

Modular Systems

Creating innovative products that meet the demands of today's world.

Tony's Plex Profile – Background

EG Industries – 10 Implementations with Plex and Revolution Group since 2010

Previous Company – Led or supported 3 Plex Implementations

Current Roles/Responsibilities:

Department of 4 Associates: 2 Support Plex / 2 Support IT & Office 365

Support Role: C.I., Supply Chain, Process, and Q&D

FY21 Goals: MS Azure Cloud Migration (18 of 64 Servers) & Cella Application Implementation

Plex Supply Chain Community

Problem Statement:

EG Industries associates have become “mechanics” of the data in the language of our business at all levels of management.

Root Causes:

No internal developer on staff to write VisionPlex or Intelliplex reports

Outsourcing development costly and hard to get approved

Corporate Resources struggled with data silos scattered across 11 locations

Plex Supply Chain Community

Definitions of the Tools:

ODBC – Open DataBase Connection

PowerBI – Business Analytics Service by Microsoft

SQL – Structured Query Language for Databases

Microsoft Teams – Microsoft Collaboration Tool

Microsoft Azure – Cloud platform

Office 365 – Cloud Application Subscription

Word, Excel, Access, Teams, Sharepoint, Outlook, etc.

What is SQL in simple terms?

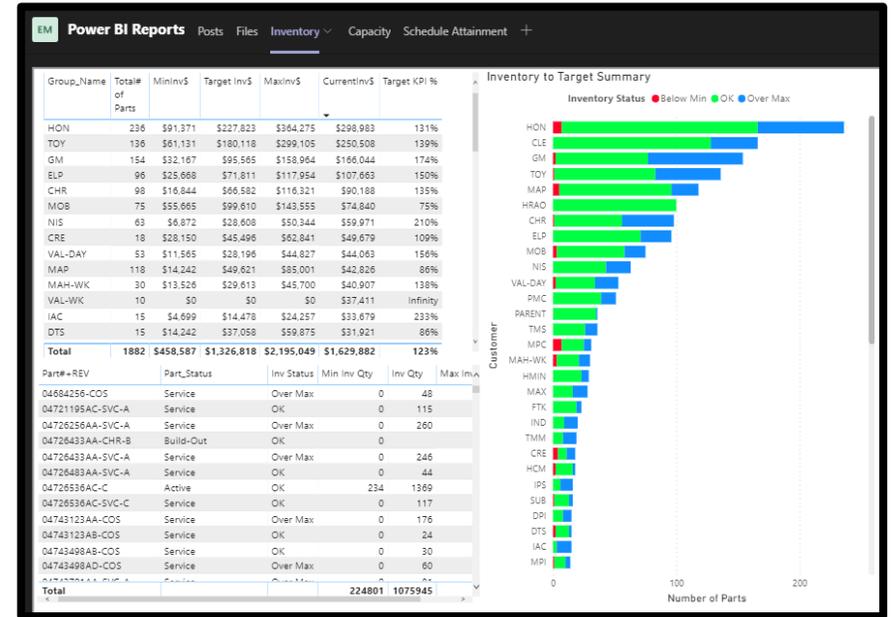

SQL (pronounced "ess-que-el") stands for **Structured Query Language**. ... **SQL** statements are used to perform tasks such as update data on a database, or retrieve data from a database. Some common relational database management systems that use **SQL** are: Oracle, Sybase, **Microsoft SQL Server**, Access, Ingres, etc.

Plex Supply Chain Community

How does ODBC work and why do I need it?

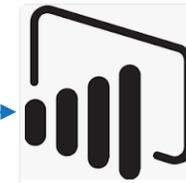

Data Engine

ODBC CONNECTION

Extract it

Form it

Visualize it

Serve it

Other DBs can be used as well (Access, MySQL, etc.)

Plex Supply Chain Community

How and where do I get the ODBC Driver for Windows?

- *Issue a Plex support ticket*
- *Ask for the ODBC Progress DataDirect Client Documentation (PDF Step by Step)*
- *Plex does charge for this connectivity \$\$*
- *Does connect to the Report Server*
 - *(Up to 4 hours old data)*

Set up Open Database Connectivity (ODBC)

Follow these instructions to set up **Progress DataDirect OpenAccess Client for ODBC SDK 8.1** in your Windows environment.

ODBC v8.1 CLIENT DRIVER INSTALLATION

You must have a valid Plex user ID and password to download and install the ODBC v8.1 client drivers.

Windows Users

1. Download the ODBC installation package.
 - 32-bit version: http://viewers.plexonline.com/Plex_ODBC_v8_1_32_bit.zip
 - 64-bit version: http://viewers.plexonline.com/Plex_ODBC_v8_1_64_bit.zip

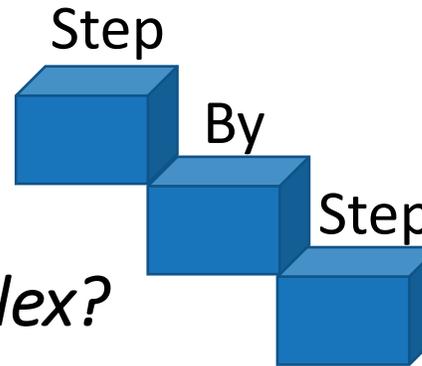

Note: Click [here](#) if you are installing both drivers.
2. Save the file to your desktop, or other file location of your choice.
3. Use Windows Explorer to navigate to the downloaded file location.
4. Double-click the .zip file.

The installation package files are unzipped to the file location.
5. Double-click the **License Key.txt** file to open the licensing key information.
6. Double-click the **progress_datadirect_oaodbc64_win_8_1_0_setup.exe** or **progress_datadirect_oaodbc34_win_8_1_0_setup.exe** file.

Note: Confirm that you want to open the file if you receive a security warning.
7. Follow the prompts from the **Progress DataDirect OpenAccess SDK 8.1 - Client for ODBC InstallShield Wizard**.
 1. On the **Welcome** screen, click **Next**.
 2. On the **End User License Agreement** screen, select the **I accept the terms in the license agreement** radio button, and click **Next**.
 3. Complete the **Product Registration** form using the **Serial #** and **Key** from the download .txt file, and click **Next**.
 4. On the **Custom Setup** screen, accept the default selections by clicking **Next**.
 5. On the **Ready to Modify the Program** screen, click **Install**.
 6. On the **InstallShield Wizard Completed** screen, click **Finish**.

How do I install it and connect to Plex?

PLEX
DOCUMENTATION

Progress DataDirect OpenAccess Client
for ODBC SDK 8.1

LAUNCH ODBC v8.1 CLIENT

1. Open the Start menu.
2. Click **Progress DataDirect OpenAccess Client**.
3. Double-click **ODBC Administrator**.

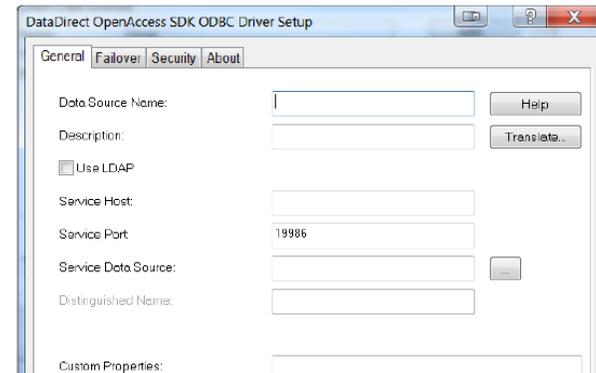

4. On the **ODBC Data Source Administrator** screen, select the **System DSN**.
5. Click **Add**.

6. From the list, select **DataDirect OpenAccess SDK 8.1 driver**.
7. Click **Finish**.

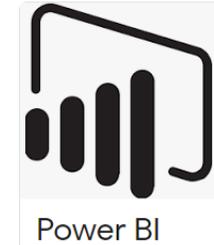

8. Complete the **DataDirect OpenAccess SDK ODBC Driver Setup**, using the values from the [table](#).

FIELD	VALUE	NOTE
Data Source Name	User-defined	This is the name your program references as the Data Source Name (DSN).
Description	User-defined	Text description of your connection.
Service Host	test.odbc.plex.com	ODBC test tier
Service Host	odbc.plex.com	ODBC production tier
Service Port	19995	TCP/IP Port for all tiers
Encrypted (SSL) Checkbox	Select	The check box is on the Security tab.
Service Data Source	ReportDataSource	
Custom Properties	CompanyCode=[Company Code]	The name/value pair that identifies your tenant code within Plex. Note: Do not use your PCN.

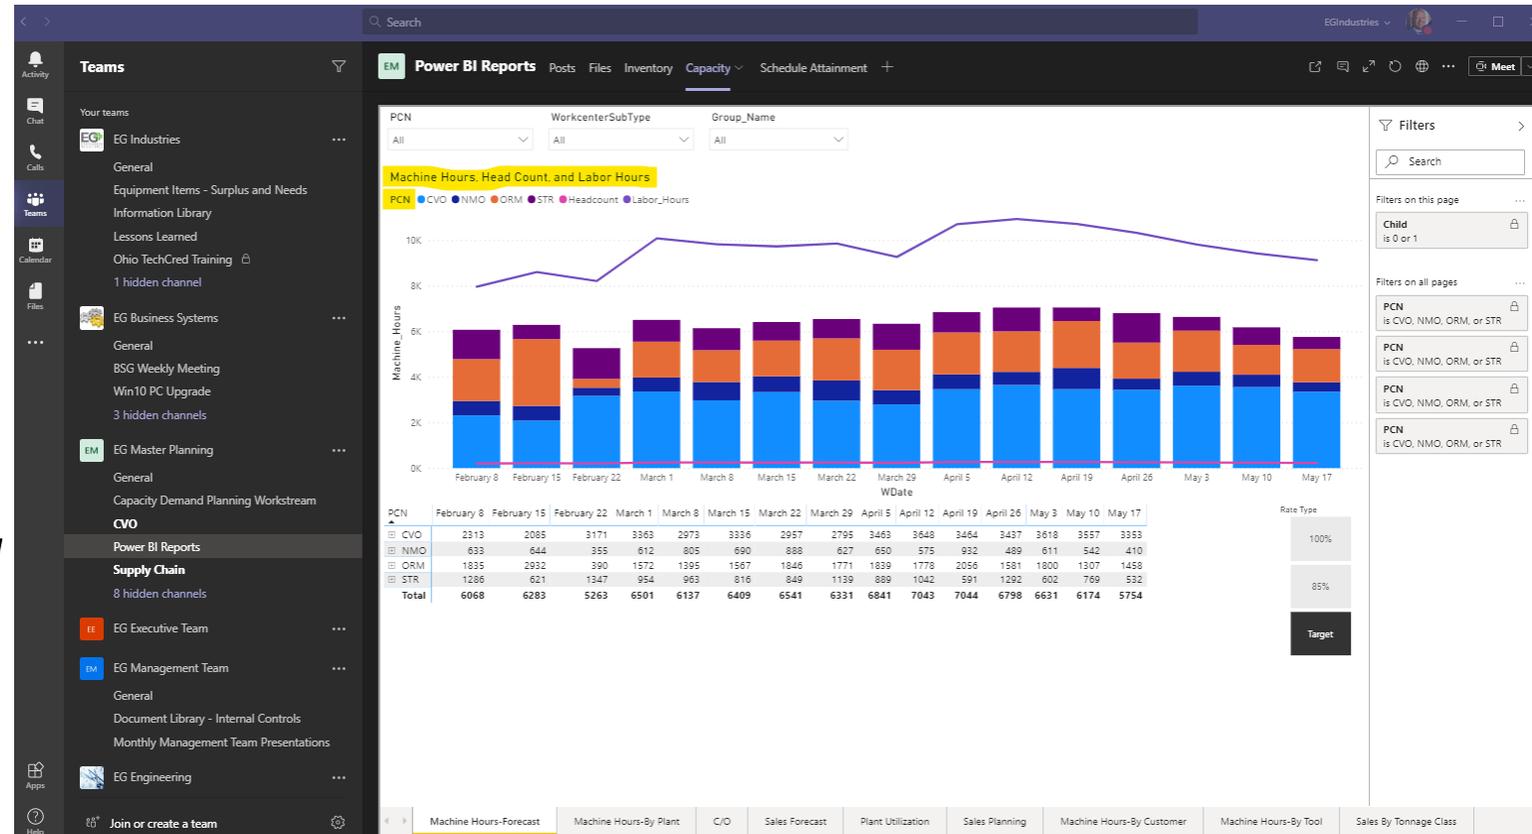

Plex Supply Chain Community

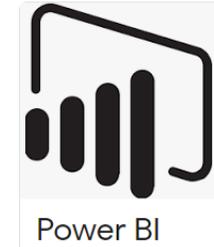

Microsoft Teams

- Create a Teams Site for each functional area
- Create Channels in those Teams Sites to collaborate and share information
- Add apps like PowerBI to server your internal customers

Plex Supply Chain Community

PowerBI Live Demo in Teams

- *Inventory Dashboards*
- *Capacity Plan*
- *Sales & Material Buy Forecasting*
- *Schedule Attainment*
- *Tool Change Overs*

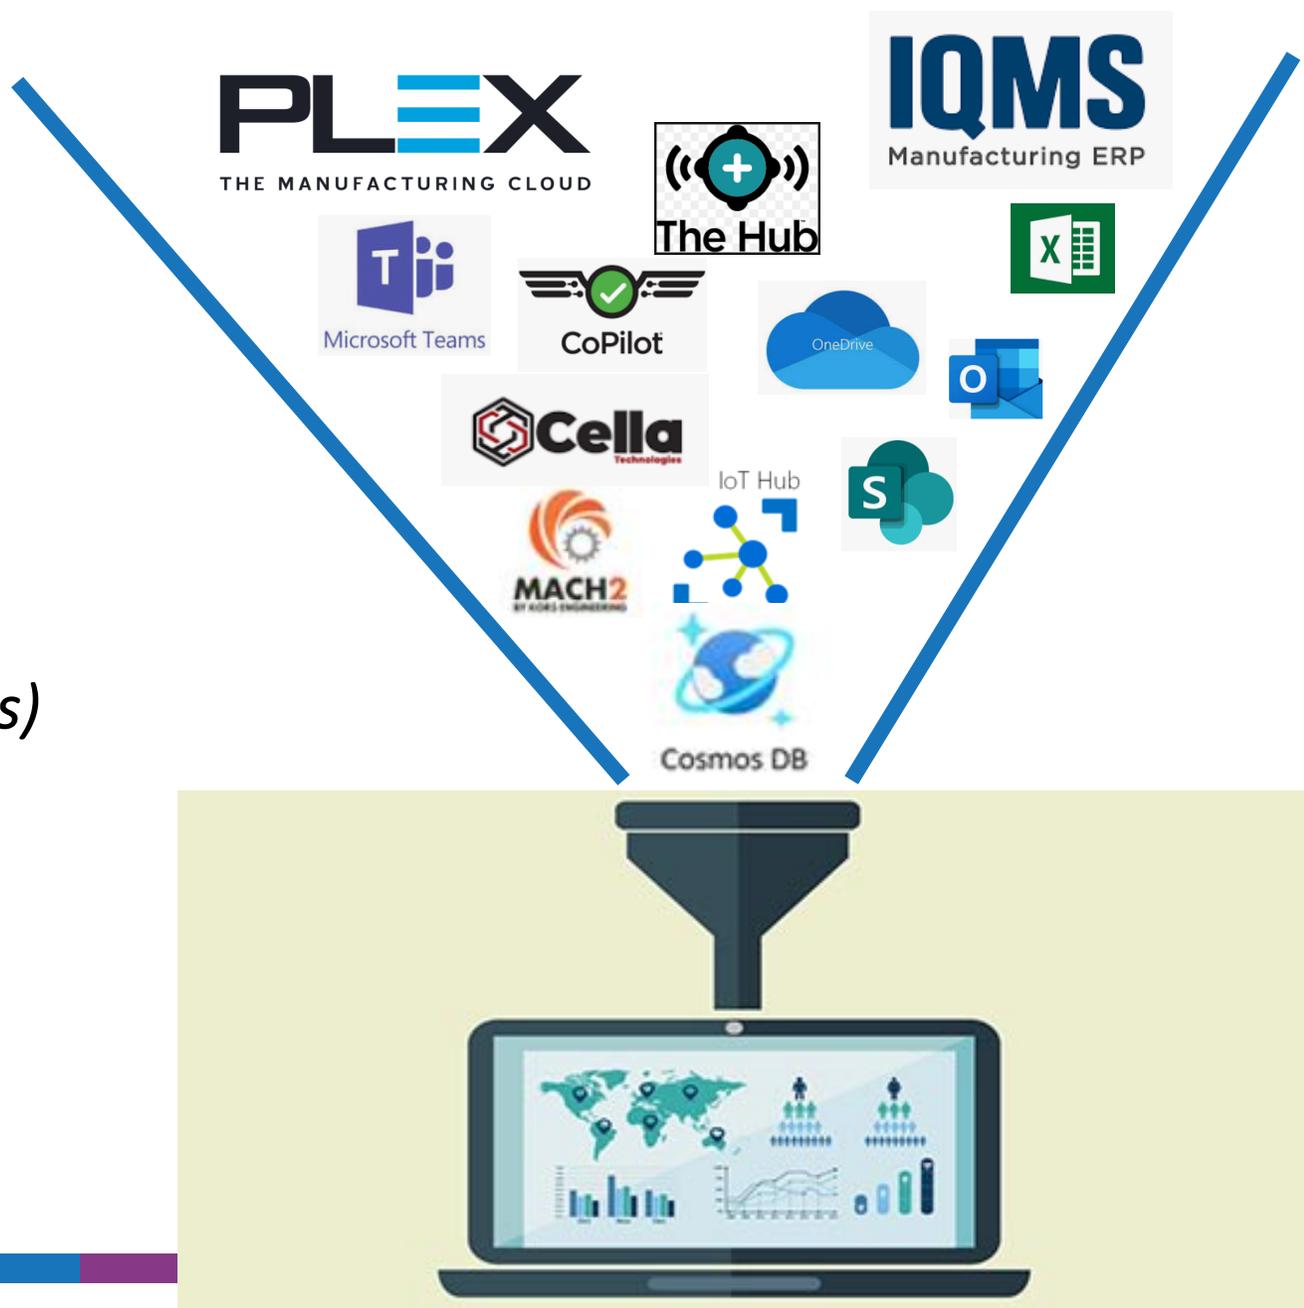

Plex Supply Chain Community

Art of the possible / What's Next?

- Microsoft Cloud Migration (18 Servers)
- IoT Azure Hub Data Collection
- Predictive and Preemptive Analytics
- Machine Learning / A.I.
- Simplified Control Panel (MES)
- Process Automation
