

WHY MICROSOFT TEAMS?

Accomplish more with intelligent collaboration

Built in protection

Help prevent data loss, reduce risks of malicious files, and regulate access

Easy integration

Deploy low or no code tools and automate complex processes

End to end collaboration

Seamlessly co-author, work across interfaces, and keep persistent discussions

Inclusive workplaces

Support diverse workforces across languages, abilities, workstyles, and technical skillsets

Considering other services?

In April 2020, the remote workforce grew to nearly half of all workers – and 98% expressed wanting to have the option to work from home for the rest of their careers. Over 115 million people around the world rely on Microsoft Teams to help them stay connected, seamlessly collaborate, and simplify work in a secure, compliant way.¹

Why Teams may be better for your business

- 1** Competitors can host online meetings, but you may need additional 3rd party tools to fully equip your teams to collaborate remotely.
- 2** Competitors lack low-code custom apps, bots, automated workflows, and data integrations, which means developer time, effort, and cost to build out solutions.
- 3** Competitors lack critical security features, like preventing data loss or stopping users from opening malicious files.

Microsoft 365 offerings vary by license. Not all Teams benefits may be included in Microsoft 365 E1 license.
